KING Graduate School
MONROE COLLEGE

MASTER OF PUBLIC HEALTH

About the Program

Public health is a diverse field that attracts professionals from various educational backgrounds who work to reduce complex health issues such as sexual transmitted infections, chronic diseases, environmental hazards, and substance abuse; and serve communities locally and globally to improve peoples' health and prolong lives. Public health professionals need to collaborate with clinicians, heath care agencies, and community members to identify resources to help mitigate these health issues and prevent future health problems.

The MPH program is designed for students who are interested in pursuing a career in public health and for those who want to enhance their careers. Most of the professional positions in public health require a graduate degree as this allows individuals to carry out the core functions of public health. Students will be prepared to pursue careers in government agencies, academia, health care institutions, public health interest groups, and non-profit organizations upon graduation.

MASTER OF PUBLIC HEALTH

The Master's In Public Health is a 45 credit program. Students are required to choose one of the concentrations in Community Health or Health Administration and Leadership. These concentrations are driven by a curriculum that provides extensive knowledge and skills needed to conduct the essential public health services. The first semesters will involve traditional public health coursework, while the last semesters will be devoted to a practice-based internship, and a thesis paper based on an outcome-oriented project.

CORE COURSES—The MPH Program is a 45 credit program consisting of 7 core courses (21 credits), 1 elective course (3 credits), a thesis (6 credits), an internship (3 credits) and 4 concentration courses (12 credits).

PH 601 — Public Health Systems and Practice

PH 605 — Behavioral and Social Aspects of Public Health

PH 640 — Environmental and Occupational Health

PH 650 — Health Policy and Management

PH 660 — Principles of Biostatistics

PH 690 — Global Health

PH 705 — Principles of Epidemiology

ELECTIVE COURSES—Choose one of the courses listed below (3 credits):

PH 675 — Public Health Informatics

PH 680 — Emergency Management in Public Health

PH 715 — Public Health Ethics

THESIS COURSES—Must take both courses (6 credits).

PH 760 — Thesis Proposal

PH 765 — Thesis data Analysis and Interpretation

INTERNSHIP (3 credits)

PH 780 — Internship in Public Health

CONCENTRATION COURSES—Students must choose one of the two concentrations (12 credits).

HEALTH ADMINISTRATION AND LEADERSHIP

PH 625 — Administration and Leadership in Public Health

PH 670 — Finance and Economics in Public Health

PH 685 — Public Health Policy and Law

PH 750 — Research Methods in Health Administration

COMMUNITY HEALTH

PH 620 — Health Promotion and Education in Diverse Communities

PH 655 — Community Health Program Planning and Development

PH 710 — Public Health Nutrition

PH 755 — Research Methods in Community Health
