

*How to Accept  
Transferred Tickets via  
Ticketmaster App*

# Accept Transferred Tickets

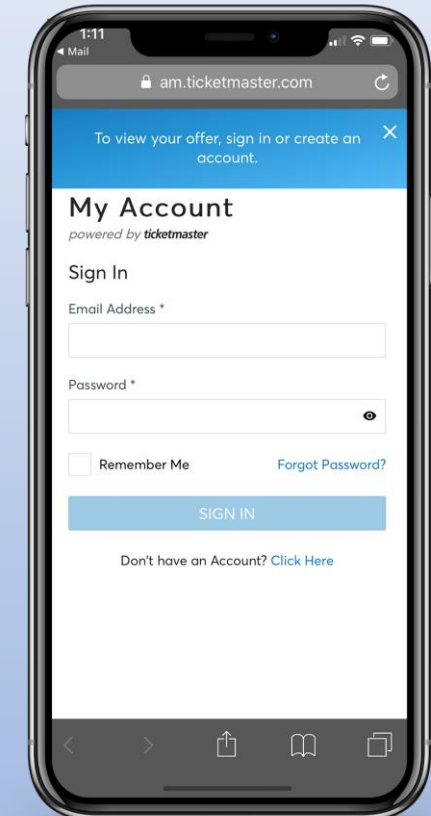

## STEP 1 - Mobile

In the text notification regarding your transfer, press the link to go to Ticketmaster Account Manager.

## STEP 1 - Email

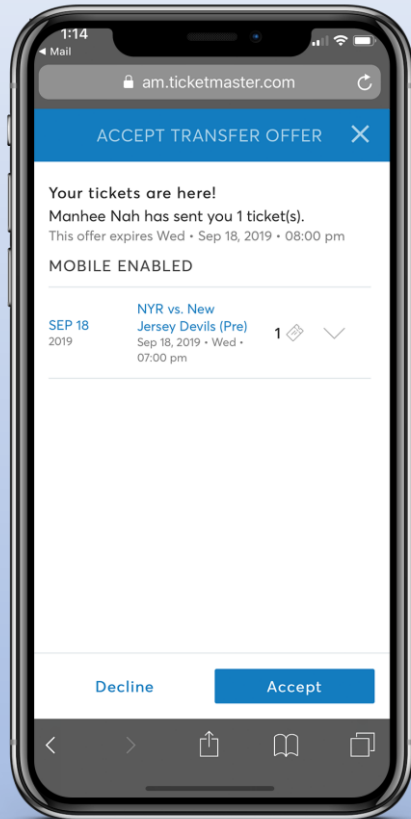

In the email notification regarding your transfer, press **Accept Tickets**.

## STEP 2

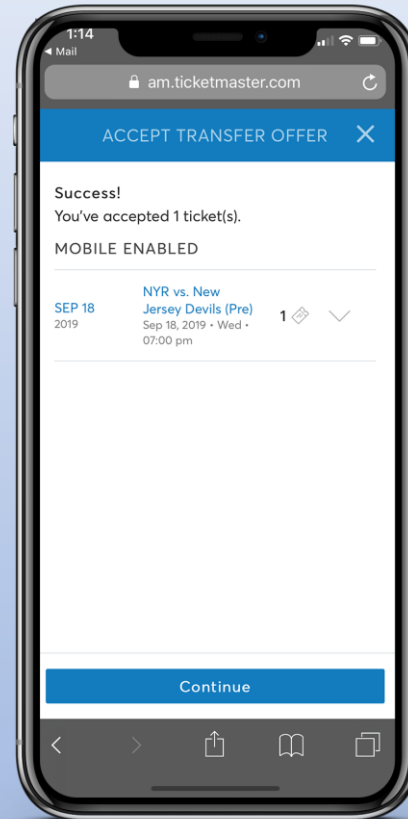

Sign in using your Ticketmaster Account information. **If the transfer was sent to an email, please make sure to login to the account associated with that email address.**

# Accept Transferred Tickets

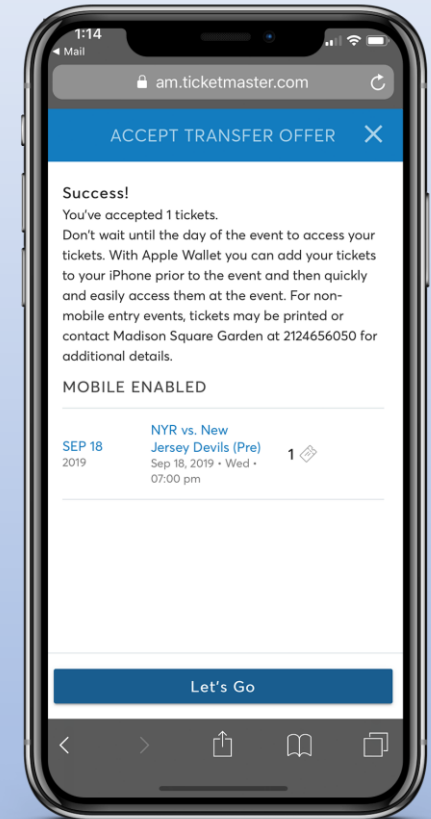

## STEP 3

View the ticket(s) in the transfer and confirm that everything looks correct. Once confirmed, press **Accept**.

## STEP 4

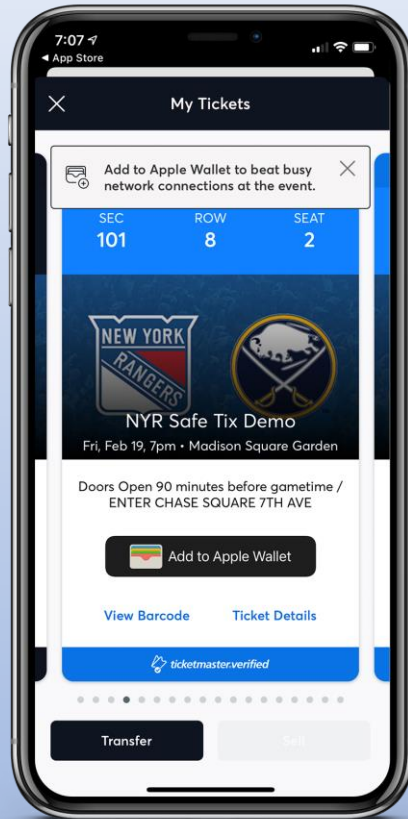

Press **Continue** to head to the next page

## STEP 5

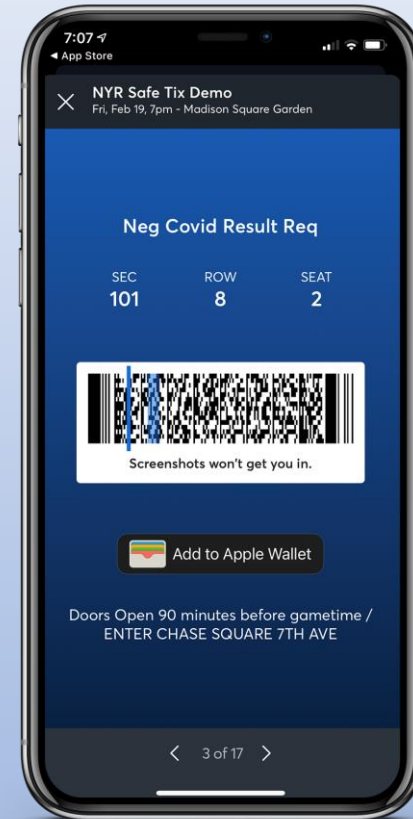

Now that your tickets have been loaded on to your Ticketmaster account, press **Let's Go** to view all your events.

# Accept Transferred Tickets

## STEP 6

Preview details for the event you accepted. If you have tickets for multiple events, you'll see them all listed here. To bring up your actual ticket press **View Barcode**.

## STEP 7

This is the mobile ticket and scannable barcode you'll need to enter the event venue. You may have multiple tickets scanned from one account if all attendees (ticket users) are present at the time of the ticket scan.
