Master of Business Administration — Marketing Concentration

The MBA program at the King Graduate School aims to stimulate learning and help students develop the competencies that corporate executives utilize in leading and managing in a complex, competitive environment. It also aims to accommodate the unique individual — the program can be custom-built to reflect your specific career goals in Marketing. The program builds upon a strong base of business knowledge with specific courses in marketing that prepare students for managerial positions within the marketing and public relations industry.

Monroe’s MBA program is geared toward working adults, with a unique three-semester academic calendar that allows students to study year-round and graduate in as few as 4 semesters. To accommodate work and family, the program can be completed in a variety of convenient ways — online, on-ground, or through a blended schedule.

Monroe’s online MBA program is designed so that students can earn an MBA while continuing to work full-time. On-ground classes can be taken at any of our three locations in the Bronx, New Rochelle, or Flushing, Queens. A blended schedule allows students to take classes on-ground and online, offering both the convenience of an online MBA program and the traditional feel of a face-to-face learning environment.
